The Buckminster Fuller inspired dome is at the highest point in the city. It will be the site for 'LED Down The Garden Path'. Paradise will be transformed by sublime projections, evocative images and unexpected elements at Queen Elizabeth Park. Atop of a lava flowing volcano, rock quarry and now the city water reservoir, Wong creates an environment with imported nature and electronic media under one tropical roof. LED: Light Emitting Diodes. 5-10 pm. \$10 at door or in advance. Public Transit: Canada Line Oakridge 41st.

Life, death and everything in between are constantly evolving. The idiom for death in Chinese is four. This site will bring together light and dark, silence and sound, living with the dead, and the 4 virtues: truth, bravery, non-violence and generosity, all transforming the modernist Celebration Hall into an installation space for encountering video art. 5-10pm. \$10 at door or in advance. Enter at 39th + Fraser St. Free Parking.

The 5 elements: earth, air, fire, water and metal, and the five senses: sight, sound, taste, touch and smell are inspirations for making use of this spectacular 15th century compound of gardens, courtyards, waterways and architectural features in the heart of Chinatown. The contemporary, classical, pictorial and moving images, old and new school, are digitally meshed in this final experience. 5-10pm. \$10 at door or in advance. 578 Carrall Street (At Pender).
